A ride on the elevator of the USS Yorktown was among the interesting experiences of 29 members of Cub Pack 221-C when they went aboard the carrier, recently.

Cubmaster Jim Cassidy and seven parents accompanied the boys on the outing, which included a picnic lunch at Banning Park in Wilmington before going aboard the carrier.

A visit to the Buffalo Ranch at Corona Del Mar is being planned for one of the activities of the Pack this month.

Girl Scout Troop 566

The girls are working on their Cooking Badge. Blueberry muffins were made at their first lesson. Sheri Northington and Dora Louise Wahl were chosen as helpers. Carol Goodrich and Shirley Meyers won samples of food. Each girl was given a taste of the muffins, plus a Kitchen Wig-Wag booklet. The mothers and leaders, Mrs. Wahl and Mrs. Grubb are providing transportation to the lessons. This troop is sponsored by Fern-Greenwood PTA.

Boy Scout Troop 728

Members spent a week end at Firestone Boy Scout Reservation. Each patrol planted a willow tree. A total of four trees were planted. The boys went swimming in the pool. Saturday evening a discussion on the stars was held. Some "friendly donkeys" made a midnight raid on the camp. A herd of sheep was observed on the hillside. Accompanying the 24 boys were Mr. Strayer and Scoutmaster Boardman. This troop is sponsored by Fern-Greenwood PTA.

Ralphs to Open New Market Thursday

Dramatic in black and white with a front that curves at a sweeping 160 degrees, the most beautiful supermarket in Southern California. It's the new Ralphs complete food store at 2205 Rosecrans Blvd., corner of Van Ness, in Gardena. Grand opening is scheduled with a four-day Celebration Sale, May 1, 2, 3, 4.

Innovations in supermarket design are immediately apparent in this handsome structure. They are the open-air areas at either side of the curved facade, each enclosed with ornamental black wrought iron, and each will introduce a "Ralphs first".

A children's play area, covered with thick rubber matting and furnished with free playground equipment will occupy the enclosure on the east side of the building, while the enclosure on the west side, adjacent to the snack bar will contain white wrought iron tables and chairs for refreshments out of doors.

Impressive Sight
The new Ralphs market will be as impressive by night as

by day with indirect lighting flooding the entire concave front behind its deep stucco overhang. Floor-to-ceiling windows form the entire front of the store, except at the center where the brick wall of the snack bar interrupts their downward sweep.

Entrance by automatic electronic doors are on either side and other innovations are found inside the new Ralphs store, where an exciting new counter material makes its initial appearance. This is plastic impregnated on aluminum, and will be seen on the battery of meat and delicatessen counters in green bordered with pink, and in the frozen food counters in pink bordered with green.

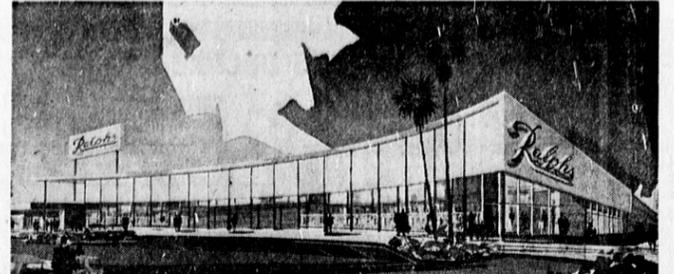

Electronics Used
The marvels of electronics introduced in recently opened Ralphs stores will be utilized in Ralph new Rosecrans store. All meats, for example, are first cut in completely refrigerated rooms, then advance on roller conveyors through a refrigerated case for automatic packaging, and then to electronic scales for weighing each

separate cut, marking price per pound and price per piece. Delicatessen counters are the new, open, reach-in counters, maintained at the proper refrigeration by an invisible wall of cold air directed by unseen fans. Dairy and beverage cases are the new ones stocked from the rear, with doors that close firmly on release.

Along the west wall of the new Ralphs store, the mirror-backed produce department adjoins the rock garden counter for growing plants. The lighted canopy of the inviting bakery department extends to include the candy department.

Air Conditioned
Fully air-conditioned for summer and with forced air heat for winter, the new Ralphs will be a pleasant place to shop, year round, with the new, soft-white fluorescent lights providing 90-candle power at the merchandise level. The aisles are wide, the flooring is easy-on-the-feet vinyl tiling, and the walls are the pleasant "pink satin and crystal green" pastels.

This is one of the larger

units of Ralphs Grocery Company stores, with some 21,000 square feet devoted to the shopping area, and about 13,000 square feet for storage and food preparation. Offices, recreation, and employees' rooms are across the mezzanine. The ten acre lot provides parking for 1000 cars.
